Interesting...

Although it is mouth-puckering to taste, once blended with other ingredients it will not overpower a recipe and will remain true to the flavor of fresh fruit. This flavor is also ideal for bar drinks because it is concentrated and pulp-free. Martinis, Cosmos and other specialty cocktails will taste and look spectacular with this true, tart flavor and vibrant yellow gem-tone color.

Tricks of the Trade

Passion Fruit Concentrate is concentrated 200% stronger than straight passion fruit juice. If you need to make juice, our Passion Fruit Concentrate can be diluted to single strength by adding one (1) part water to one (1) part concentrate.

Classic & Contemporary Uses

This is a beautiful flavor in ice creams, mousses and custards. Vinaigrettes, butter and/or cream sauces (especially nice with shellfish), rich meats like duck and mixed drinks all pair beautifully with this high acid fruit flavor.

Examples: White chocolate passion fruit bombe, crab, fennel and passion fruit salad, duck confit with walnut rice and passion fruit demiglace, passion fruit meringue pie, passion fruit coconut mousse cake
